

# JULY

July 10, 1913

Death Valley

134 deg

(hottest on record!)

Black, red and green fireworks mark my 4<sup>th</sup> of July...  
Frederick D. questioned the day in a speech...  
This month is known for the red ruby birthstone  
and red-hot temperatures, the hottest month  
of the year...with the highest recorded  
temperature on the planet [Guinness]
